

Interviewee Introduction			
No.	Name	Company	Group
Interviewees for Chapter 2 (State of Art Review)			
1	Client Advisor	Exigo A/S	Consultancy
	<ul style="list-style-type: none"><li>- Bachelor degree in structural engineering</li><li>- Master degree in construction &amp; management</li><li>- Project Manager at Exigo with main project SDU in Odense</li><li>- Responsible for the successful implementation of Exicute in construction projects</li><li>- Denmark has an innovation advantage compared to the US and other countries as it implements technologies early</li><li>- Don't use this technology regarding the site and logistics. Data is taken and transferred manually which is time consuming and error prone</li></ul>		
2	Head of Digitalization	Consultancy A	Consultancy
	<ul style="list-style-type: none"><li>- Bachelor degree in Civil Engineering</li><li>- Master degree in software development and industrial</li><li>- PhD in design management</li><li>- 15 years of experience in transforming the construction industry, by implementing digital technology on construction projects that creates value</li><li>- Work with BIM and digitalization in his professional career for different contractor and consultancies</li><li>- 4D-Models and use of VICO to improve construction</li><li>- Focus on productivity enhancing tools for construction<ul style="list-style-type: none"><li>a) How to report back from site --&gt; Progress monitoring</li><li>b) Image recognition for safety and productivity improvement --&gt; analyze pictures to see progress based on model</li></ul></li><li>- Now at Consultancy A: Enabling companies that wants to enhance its profile in digitalization of the construction industry</li></ul>		
Interviewees for Chapter 5.1 (Improving the TCI management process)			
1	Head of Department BPI (Construction Site Layout)	TCI Provider A	TCI Provider
	<ul style="list-style-type: none"><li>- Head of department BPI Construction site layout at TCI Provider A (5 years)</li><li>- 25 years experience in logistics management in general</li><li>- 14 years experience in logistics management of building materials in construction</li><li>- Experience in logistics management in construction</li><li>- Expert in construction site layout planning &amp; management</li><li>- Knowledge about the management of TCIs</li><li>- Implementation of technology in construction site supply &amp; management</li></ul>		
2	BIM Specialist	TCI Provider B	TCI Provider
	<ul style="list-style-type: none"><li>- More than 2 years as BIM Manager in TCI Provider B</li><li>- Department of Digital Transformation - BIM Competence centre at TCI Provider B</li><li>- Bachelor degree in Construction Project Management</li><li>- Currently studying a master degree in Energy Efficient Design</li><li>- Experience in BIM process integration for TCIs in construction projects</li><li>- Provides TCI product information for prototyping</li></ul>		
1	Supervision Leader & Construction Manager on client side	Client A	Client
	<ul style="list-style-type: none"><li>- Construction Management/ Supervision from the owner side</li><li>- Responsible for case study project SDU SUND new university building (300 million DKK and 50.000 m²)</li></ul> <p>Supervision Leader:</p> <ul style="list-style-type: none"><li>- Profound experience for many years in construction and logistics management on site</li><li>- Direct contact to case study project</li></ul> <p>Construction Manager:</p> <ul style="list-style-type: none"><li>- Structural engineer graduated in 2017</li><li>- Part of SDU SUND project for Client A</li></ul>		
Evaluation Interviews for Chapter 6			
1	Technical Manager, BIM Responsible & Design Engineer	TCI Provider B	TCI Provider
	<p>Technical Manager:</p> <ul style="list-style-type: none"><li>- Civil Engineer at TCI Provider B for 10 years --&gt; Formwork planning and management</li><li>- Former work experience as a contractor for 11 years --&gt; Knowledge about construction site planning</li></ul> <p>BIM Responsible:</p> <ul style="list-style-type: none"><li>- BIM responsible for TCI Provider B since 1 year --&gt; Formwork planning and management with BIM perspective</li><li>- BIM experience based on sales aspect --&gt; Not yet fully implemented at TCI Provider B as clients are not willing to pay for BIM as a service</li></ul> <p>Design Engineer:</p> <ul style="list-style-type: none"><li>- Construction Architect education</li><li>- 7 years at TCI Provider B as a design engineer</li><li>- Project engineer of SDU SUND (case study) --&gt; Only delivered formwork elements without planning them --&gt; Planning is on Contractor B</li></ul>		
1	Head of VDC	Contractor A	Contractor
	<ul style="list-style-type: none"><li>- VDC Development Manager</li><li>- 2002: Career start as a technical drafter in Tekla</li><li>- 2007: BIM specialist at a construction consultancy(Tekla expert with responsibility to develop templates and educate the staff)</li><li>- 2013: BIM lead at a construction consultancy</li><li>- 2016: Joined Contractor A as VDC Group Manager and later head of VDC</li></ul> <p>- BIM experience mainly for planning and modelling reinforcement of concrete structures in 3D and using the result as quantities for the site workers</p>		

Interviewee Introduction			
No.	Name	Company	Group
2	Head of VDC & VDC Manager	Contractor B	Contractor
	Head of VDC: - Senior Technical Director, VDC Planning & Support - 28 years of experience as a BIM/VDC specialist and leader in a construction company - Supports student project as master theses and PhD dissertations  VDC Manager: - VDC Manager at a construction company since 4 years - Bachelor and Master education in Architectural Engineering		
3	Lead VDC Manager	Contractor C	Contractor
	- Lead manager VDC at Contractor C - Master education in Building Informatics - Total of 10 years experience with BIM-based technology - 4 years experience as VDC specialist and leader in a big construction company - 7 year experience as a project leader  - Schedule Planning, VDC, digitalization & ICT-Management - Advanced knowledge about the early stages in design, as well as from construction - Sees the main issue in the construction industry in the lack of collaboration between the design and construction parties		
4	Head of Department	Contractor D	Contractor
	- Education as a Construction Architect (graduation in 2005) - 14 years experience as a construction consultant, project manager and head of production - Knowledge and experience in both data driven construction and the challenges of implementing new technologies in construction - Experienced in BIM technology, location-based scheduling, data-driven information flow - Is using the exicute platform for construction projects		
3	CEO, Founder of Exigo A/S, Digital Construction Expert	Exigo A/S	Consultancy
	- Master degree in Civil Engineering as well as IT Engineering - PhD in IT in Construction - Part time associate professor for 10 years - 8 years experience in a big consultancy - Founded Exigo A/S 10 years ago and established the company as a leading Danish specialist in the integration of BIM with project and risk management		
4	Digital Development Director & Digital Engineering Lead Specialist	Consultancy B	Consultancy
	Digital Development Director - Master Degree in Civil Engineering - PhD in Design and Information Management in Construction - 12 years experience as an engineer as well as chief consultant in a big consultancy - Section Manager, VDC Business Development at a contractor for over two years - Digital development Director at Consultancy B mainly for buildings department since one year  Digital Engineering Lead Specialist - 9 years experience at a construction company - 12 years now at Consultancy B, working as a BIM/VDC lead specialist		
5	Expertise Director ICT, Head of BIM & Linked Building Data expert	Consultancy C (NIRAS)	Consultancy
	Expertise Director ICT - over 30 years of experience in the industry as a project director and ICT expert - expertise area in ICT, BIM, process development and project planning regarding construction projects Head of BIM - 11 years of experience as a BIM specialist and leader - expertise in BIM and VDC, Data management, ICT, Location Based Scheduling Linked Building Data expert: - PhD in Linked Building Data - 7 years of experience as a HVAC engineer with focus on the implementation of Linked Data for different applications		
6	Senior Consultant	Consultancy D (Dalux)	Consultancy
	- originally started career as a carpenter - 5 years of experience as a architect on the main contractor side - Since 15 years expert into IT related to construction --> 5D planning and simulating the construction process --> Implementation of digital solutions in the construction industry --> BIM, usability, mobility and especially handover of data from Build to FM		
7	Head of BIM	Consultancy E (Rambøll)	Consultancy
	- M.Sc. in Structural Engineering - Working at Consultancy E since 20 years - Since 5 years responsible for the use of BIM in the buildings department - Experience in structural calculation, 3D-integration, BIM, Tekla Structures - Main perspective from consultancy but was also involved in sequence planning of construction workflows with VDC and site supervisions of big building projects
